A WAR IN REAL ESTATE.

RIVAL EXCHANGE? PROBABLE. THE OWNERS' EXCHANGE OPPOSED BY BROKERS-THE MARKET LAST WEEK.

The Owners' exchange offosed by Brokers—
The Market Last week.

The incorporation of the Real Estate Exchange (limited), as announced by an Albany dispatch yesterday, excited considerable comment among real estate dealers and brokers. It is under the Business act of 1875. The Commissioners named to receive subscriptions to the stock are Franklin Edson, exchange of Grace, James D. Fish, president of the Marine Bank; Charles Condert, of Condert Brothers, and Robert A. Chesebrough. The proposed capital stock is \$500,000, divided into \$100 shares. Mr. Condert stated yesterday that subscriptions would be received to-morrow, and nuless the amount was filled before, the time for their reception would be until November 30. He said that prominent real estate owners had pledged their support to the scheme and he had no doubt that it would be a success. "There are about \$9,000 real estate owners in this city," continued Mr. Condert, "and the real estate here is assessed at \$1,100,000,000, while its value is probably twice that amount. Such a large interest should have a central organization to look after its needs, protect it in matters of legislation, and provide a suitable place for the transaction of business where owners and dealers can be brought together. Only holders of real estate will be eligible for membership, and no single member can hold more than ten shares, representing \$1,000. No site has yet been selected for the new exchange building, but several sites are under consideration."

The new exchange has been started independently of the movement among prominent real estate brokers looking to the same end. This was begun a few months ago, with the object as has been stated in This Trinture of concentrating the interests of real estate owners, dealers and brokers, and providing for their mutual benefit and protection. Public anction sales were to be held at times and all information affecting realty was to be carefully gathered and compiled for reference. A committee was selected, composed of E. H. Ludlow, Alb

suit ble s te near the present real estate centre, and have a--it completed their organization, of which due notice will be given.

Mr. Coudert yesterday said that the dealers had refused to consider the old Produce Exchange building as a site for the new exchange. Mr. Chesebrough had wished them to agree to submit that along with other sites that were discussed to the decision of the subscribers, but they had positively refused to do so. There were many advantages about the Produce Exchange building. It was large, airy, light and casy of access. The owners of property who were interested in forming a real estate exchange could not submit to the dictation of brokers, and hence the conferences had ended.

The brokers say that the Produce Exchange building is too far from the real estate centre, which is about Wall and Pine sts. It was utterly impossible to establish a successful exchange so far down town as Mr. Chesebrough has proposed to do. A member of the brokers' committee said: "Mr. Chesebrough and Mr. Coudert will find that they can start an exchange, but cannot make it a success without the aid of the brokers who do the business. Property-owners will not become brokers themselves. Piue-st. for twenty years has been the centre of the real estate business in New-York and a successful institution cannot be situated far away from it. Pine-st. is practically unanimous against the scheme proposed by Mr. Chesebrough, based on the idea of taking the old Produce Exchange building as the site. We could not agree to submit such a proposition to the subscribers because the stock might readily be secured by the persons who favor the Produce Exchange site." The brokers say that the property-owners who favor that site do so because they wish to enhance the value of the property which they hold in the neighborhood of the Produce Exchange. A lively contest is anticipated between the supporters of the rival movements for the new exchange.

The real estate market last week was dull, but

that site do so became they wish to enhance they also the backets with they hold in the backets will be been a compilate size. The property which they had been no compilate size. The property between the supporters of the rival movements for the new exchange. Was said, but The real, estate market has was assistant to be the property of the property between the property of the pro

George W. da Cunha, the architect, has prepared George W. da Cunha, the architect, has prepared preliminary pians for a family hotel to be crected on the Fifth Avenue Plaza extending from Fifty-eighth to Fifty-ninth sts., of which the following is an outline: The main entrance is to be in Fifth-avente the entrances for tradespeople in Fifty-eighth and Fifty-ninth sts. The court in the Fifth Avenue front, between the two wings, will be 44x50 feet, and this construction will give a view of Fifth-avefrom all the principal rooms. The building will be eight stories in height with basement and attic and will be fire-proof; no story will be less than twelve feet in height. On each floor above the first there will be two suites of ten rooms each four subes of feet in height. On each floor above the first there will be two suites of ten rooms each, four suites of eight rooms each and two suites of seven rooms; in addition, each suite will have a bath-room and closets. On the first floor will be the dining-room for the use of occupants and a general restaurant. The exterior will be treated in the Rengissance style, the first and second stories being constructed of stope; and the upper part of the front of brick, with stone trimmings and terra-cotta bands, panels, etc. The cost of the building will probably not exceed \$1,000,000.

COMPLICITY IN WATER RENT FRAUDS. ROBERT M'KAY ARRESTED-NEW INDICTMENTS

AGAINST AIKEN AND CARROLL. AGAINST AIKEN AND CARROLL.

Detectives Reilly and Von Gerichten made another arrest yesterday in connection with the frauds in the Water Register's Bureau, the accused man being Robert McKay, a former cierk in the bureau. Six indictments were found against him by the Grand Jury that was discharged on Friday. They are all founded on his transactions with Messrs. Clausen & Price, the brewers, who are large consumers of the city water.

Immediately after McKay ceased to be connected with the bureau in September, 1880, he went to

consumers of the city water.

Immediately after McKay ceased to be connected with the bureau in September, 1880, he went to the brewers and, as it is charged, informed them that he could obtain a reduction in the amount of the water rate paid by them. He represented that he was still a clerk in in the department and offered to receive about two-thirds of the amount due in payment of the whole. At various times in the next two years he is alleged to have secured large sums of money from the same firm on similar representations. The several offences charged are the obtaining of \$659 on September 27, 1880; \$400 on December 22, 1880; \$190 on May 24, 1881; \$165 on December 15, 1881; \$175 on May 9, 1882, and \$180 on November 14, 1882. Through Aiken he had the full amount credited on the books of the bureau. McKay was taken before Judge Donohue and was held in \$5,000 bail on the charges against him. David E. Aiken was also arrested but as he was already under bail on other charges, he was paroled until Monday.

The three clers in the Water Bureau who were arrested on Friday were taken to the District-Attorney's office yesterday and admitted to bail. John B. Dolan gave bail to the amount of \$2,500 on his indictment for grand larceny, William Pigeon, of No. 323 East Mincteenth-st. becoming his bondsman. Frederick Habershaw of No. 113 Maiden lane, gave bonds in the sum of \$2,000 for the appearance of Silleck S. Schofield, who was jointly indicted with Wynne and Aiken for grand larceny and forgery, Michael Wynne was indicted under the name of Michael Quinn. His bail was fixed at \$2,000 and George H. Hotmar, a flour and feed merchant at No. 843 East Porty-sixth-\$2, gave the necessary security.

Later in the day John B. Carroll, who has pre-Later in the day John B. Carroll, who has previously been arrested on other indictments, was again taken into custody by the detectives. He was connected with the Bureau of Arrears of Taxes, undef Artemus S. Cady. Two additional indictments were found against him. He was allowed to go on his own recognizance until Monday as he is already under bonds on similar charges made in September Robert McKay is a well-known Democratic politician. He was made a water-meter inspector in the Department of Public Works on March 1, 1878, and he resigned February 25, 1880, to take a place in the County Clerk's office under William A. Butlet. He lost his place when Mr. Butlet's term expires. Not long ago he was appointed a keeper in Ludlow Street Jail, and recently he was presented by some with diamonds.

THE ACCUSED EXCISE BOARD.

WHAT THE COMMISSIONERS HAVE TO SAY A SUFFICIENT ANSWER READY-WHAT THE RECORD SHOW.

Excise Commissioner Mitchell was asked yester-day by a reporter of The Tribune what answer the members of the Board would make to the present-ment of the Grand Jury. He replied: "The Board has a sufficient answer. It would have been hetter to indict us and give us an opportunity to make our answer in court. The places which have been men-tioned as the resorts of theves and other low char-acters either have no licenses, or else the person to whom the license was granted was certified to by the police as a proper person te receive a license. whom the license was granted was certified to by the police as a proper person to receive a license. Shang? Draper has never been licensed. His brother, William, is the keeper of the place No. 486 Sixth-ave. When the late shooting case was reported to us Draper was cited before the Board. The case is not yet concluded. We will not knowingly license a bad place. John Nugent, now in prison, was never licensed. The same is the case with others who are mentioned in the Grand, Jury's presentment. We furnish the police lists of those who are not licensed. It rests with the police to prevent the selling of liquor in unlicensed places."

to prevent the selling of liquor in unlicensed places."

Cormissioner Houghton said that the presentment was cowardly and unjust to the Excise Board

"It is stated." he added, "that three of the Inspectors of the Board have been complained of and indicted for violating the Excise law. The inspectors mentioned are Lawrence McDonald, Alexander McKeever and Patrick Shortell. When they were appointed inspectors they owned liquor-shops. They sold these. After their indictment they produced the bills of sale, the insurance policies, and receipts for goods bought. The Commissioners have conferred with the Mayor relative to closing up unlicensed places. D. J. Whitney, of the Society for the Prevention of Vice, is undoubtedly the person who has given a good part of the information on which the presentment is based. In one case, that of George A. Greene, who is charged with keeping an immoral place at No. 120 East Thirteeuth-st., there was a long and exhaustive trial, and Mr. There was a long and exhaustive

Whitney was given ample opportunity to produce his evidence to substantiate his assertions. He failed to do so, although requested by the Excise Commissioners.

Jerome Brady, general book-keeper and stemographer for the Board, furnished from the official records the history of the various persons and places mentioned in the Grand Jury's presentment. No. 466 Sixth-ave, was licensed by William Draper. "Shang" Draper never received a license. When William Draper applied for a license his application was forwarded to Superintendent Walling, as is usual in such cases. It was referred to the officer in command of the Prenty-inth Police Precinct. Josiah Westervelt, the sergeant in command of the precinct, reported that Draper's general character was good, and on this report a license was granted. "Abe" Coakley, who keeps the Fountain Hotel at South Fifth-ave, and Canal-st., has never secured a license of the first by the deed, and it did not constitute of the swas reported upon favorably by the police. Edward Matthews, who keeps a liquor shop at No. 481 Second-ave., has no license. Robert Nelson, of Seventh-ave, and Thirtheenth-st., was licensed on a favorable report from the police. John Nugent, who formerly kept No. 109 West Houston-st., had his license revoked. Joseph O'Donnell, of No. 501 Sixth-ave, has a license. He was favorably reported on by the police. Joseph Welling, of No. 126 West Houston-st., had his license revoked. Joseph O'Donnell, of No. 501 Sixth-ave, has a license. He was favorably reported on by the police. Joseph Welling, of No. 126 West Houston-st., is licensed. No complaint has been made against either member of the firm by the police. Joseph Welling, of No. 126 West Houston-st., is licensed. No complaint has been made against either member of the firm by the police. Joseph Welling, of No. 126 West Houston-st., is licensed. No complaint has been made against either member of the firm by the police. Joseph Welling, of No. 126 West Houston-st., is licensed and folicing the policing that the native

The subjects of the remaining lectures are: "Matthew Arnold, Writer and Poet," "Margaret Fuller," "Dante and his Epic," "Lucretia Mott," "Edgar Allen Poe," and "Robert Browning," The Rev. Robert Collyer will give the lecture on "Lucretia Mott."

A NEW STEERING APPARATUS.

A NEW STEERING APPARATUS.

A novel steering apparatus is to be placed in the United States tug Mina. The apparatus is the invention of J. J Kunstadter, an Hungarian, and it has been used with success in Europe. The shaft of the propeller is carried through the rudder post, and there by means of a universal joint is connected with a shaft running through the rudder and having at its end a supplementary screw. The universal joint allows the rudder to move freely and yet establishes a perfect connection between the main and the supplementary screws. It will be readily seen that when the h m is put to port or to starboard the driving power of the supplementary screws is brought into play to turn the vessel. The vessel is thus turned quickly in a small space. In cases where there is danger of collision and the engines are reversed the vessel can be driven backward and completely out of her course in an exceedingly short space of time, as experiments have shown.

THE COURTS.

A MOTHER ASKS FOR HER ADOPTED BOY. HIS FOSTER-PARENTS REFUSE TO RETURN HIM-THEIR ACTION SUSTAINED.

Andrew Hollman, the proprietor of the Svea Hotel in this city, in May, 1881, received into his house n family of Swedes named Anderson who had just come from the old country. The next day Mr. Anderson mysteriously disappeared and his wife has never heard from him since. He had in his possession whatever property the family owned, and Mrs. Anderson was left penniless with two little children, a girl and a boy. Mr. Hollman took much interest in the case, endeavored to find the missing man, secured a situation for Mrs. Anderson and took care of the boy, who was then five years of age, until Mrs. Anderson was able to do so. This arrangement was continued for several months, Mrs. Anderson on each visit to the hotel praying that the boy might still be allowed to remain where he was.

In August, 1881, Mr. and Mrs. Hollman, who had become much attached to the handsome and intelligent lad, told the mother that if they kept the boy any longer they wished to adopt him legally. Mrs. Anderson, after consideration, assented to this, and a lawyer was employed to take the necessary steps. Deeds were signed in which Mrs. Anderson gave up all of her mother's claim and all right of custody to the child, and the Hollmans agreed to assume the duties and responsibilities of parents to it. The lawyer, however, did not go before the proper court and have an order for the adoption made by the Judge. The boy has since remained with his foster-parents.

A few months ago Mrs. Anderson began habeas corpus proceedings in the Supreme Court to regain passession of the child. She asserted that she did not know the cou-

which was the follow business and the second continues to the second continues of the second continues

hooped, experiments are already in prescress for determining the most suitable rifiling and projectiles. The results thus far obtained are fair and encourage the hope that with our service projectiles a good degree of accuracy may be realized from a muzzle-loading rifled mortar. It is recommended that the conversion of ten-inch smooth bores into muzzle-loading eight-inch rifles be continued. The results of trials show that the eight-inch rifle has sufficient power to penetrate wrought from armor eight inches thick at 1,000 yards, and this will include that of more than one-half of the armored vessels of the world. For places where the depth of water will only admit vessels of light draught and of comparatively thin arnor, and for secondary positions in more important places, this gain will fulfil all the conditions of a good defence.

It is also recommended to utilize our 300 15-inch smooth-bore guns, by supplying the carriages with hydraulic buffers to absorb the recoil, and thus enable us to use the heaviest charges. The projectile energy of this gun has been largely increased, and renders it not only efficient for secondary purposes, but a very formidable weapon even in our most important harbors. The Gun Founday Beard has visited the principal steel and iron works in this country, and the great steel works and gan factories of Europe. It is hoped that it will be able to submit to Congress such a strong and full report, and make such definite recommendations, that Congress will be able to take promps action toward providing for the country's great want in suitable inclinities and plant for the manufacture of heavy ordname.

In a chapter on the militia, the Chief of Ordnauce remarks that substantial encouragement should be given to the formation of volunteer organizations in every State, district and city by liberal appropriations made by Congress to supply the arms, equipments, tents, animumition and other ordnames stores. A well digested system of organization and a proper recognition of successful efforts

FRAUDS BY PENSION AGENTS.

A LEGAL QUESTION SUBMITTED TO THE ATTORNEY-GENERAL.

Washington, Nov. 3 .- The following communication concerning the investigation of frauds com-mitted by pension attorneys has been sent to the Attorney-General by Secretary Teller:

mitted by pension attorneys has been sent to the Attorney-General by Secretary Teller:

I am in receipt of a communication from George B. Corkinii, esq., United States Attorney for the District of Columbia, in reference to alleged francis committed by attorneys and agents upon persons desirous of making application for pendous under the United States laws, in which he states that he will need the assistance of the Pension Office in the investigation-which he proposes to make, and requests that I will direct the Commiscoper of Pensions "to detail an examiner to report to him for temporary service, with authority to investigate all the claims in connection with which charges are made against attorneys. The offences of which these attorneys are said to be guilty are not such, I am informed, as can properly be considered offences, statutory or otherwise, against attorneys. The offences of which these attorneys are said to be guilty are not such, I am informed, as can properly be considered offences, statutory or otherwise, against the United States, except in so far as they are committed within the District of Columbia, and, therefore, must necessarily be prosecuted by the United States Attorney in the name of the United States; in other words, no section of the Revised Statutes is violated by those charged with obtaining money transduces is violated by those charged with obtaining money transduces; in other words, no section of the Revised Statutes is violated by these charged with obtaining money transduces in the access of this, allowed by law. On receipt of Mr. Corkvill's letter I reterred it to the Commissioner of Pensions of Revisions for Austone for an expression of his views. With regard to that persion of the District-Atterney's letter which requests a detail of a special examinator to assist in the investigating reports of the second of the second of the commissioner references that the commissioner of Pensions has anthority to det. Il derks or persons employed in his office only for specific purposes, un

PRESBYTERIAN WORSHIP.

In the current number of The Presbyterian Review the Rev. Dr. Patterson discusses in a vigorous style the question whether or not a litargy which provides forms of prayer and a responsive worship, and which observes what are called the great Christian festivals, is consistent with, or permissible in, Presbyterian worship. And he decides, on what appear to be strong arguments, that such a mode of worship is entirely con-trary to the genius of Preshyterianism. It is not posoble here to give all these arguments in full; but a few of them may be briefly noticed.

He first states that a liturgical form of worship is unstaral, and moreover that there are no aut ords of liturgles during the first three centuries of the Christian era. Liturgies, he says, " grew with the decay of the spiritual life, and of an Intelligent and educated ministry; with the overshadowing advance of hierarchies, and with the increasing leaven of sacramentar-lanism." But even aside from the historical argument, Dr. Patterson believes that there is something in the Presbyterian system which is alien to this form of worship. In the words of Dr Shields, "the genius of presbytery the world over cannot endure anything more stringent than a directory or system of general rules and suggestions."

gestions.

astly, the audible responsive feature of liturgical
rhip 'is both childish and unphilosophical." The remisve reading of the Scriptures is hardly known outof the Anglican Church. It is a relic of monestic
inting. It does not communicate sense; but rather,
habel of noises is utterly subversive of the idea of
riship. Even in the English Church at the present day
as largely ceased, and the old oustom of singing has
en its piace.

Reported by JOHN H. DAVIS & Co., 17 Wall-st.

SATURDAY, Nov. 3-P. M.

To-day's stock market was little more than a peronal affair. First prices were not materially different from yesterday's last figures; more were down a fraction than were up. Everything indicated a dull day. The threatened monotony, however, was relieved by the late large operations-both purchases and sales-of a single trader. So there were plenty of fluctuations and a final closing at figures that generally are higher than at yesterday's end. Special attention was given to Northwestern, St. Paul, Dela, Lackawanna, Western, and Louisville and Nashville, all of which closed higher-14 to 34 per cent-than last evening. Taking the market as a whole, however, it was

Government bonds were dull and the market was without feature; the final-bids show an advance of 1s for the 412s and a decline of 1s for the 3s. Annexed are the closing quotations:

State bonds were entirely neglected. Of city bank stocks twenty-three shares of Continental sold at 115. The business in railroad bonds, although gener-

ally in small amounts, was well distributed. Missouri, Kansas and Texas seconds opened up 2 per cent at 65, and declined to 6378, and the general 68 were 34 higher at 8212. Erie second consols were ¹4 higher at 93³4. West Shore and Buffalo 5s were
¹2 higher at 74, and Central and Hudson debenture 5s sold at 10312, and the cousol 7s were 4 lower at 13034, and the 6s, 1887, sold at 107. Pennsylvania 41₂₈ sold at 953₄@96. Louisville and Nashville general 6s were 7s higher at 943s. Chicago, Burlington and Quincy debenture 5s were up 14 at 8934. St. Paul and Omaha consols were firm at 108%. Wabash general 6s declined 11s to 69. Texas and Pacific incomes were 12 better at 4912, and firsts, Rio Grande division, were up 14 at 9414. New-

to 67. The Sub-Treasury to day lost on balance \$272,702 made up by a coin loss of \$426,456 less a currency gain of \$153,754. The day's transactions covered: Receipts, \$1,118,301; payments, \$1,391,003; currency balance, \$6,592,797; coin balance, \$117,-

Orleans and Pacific firsts were 12 higher at 8312@ 833s, and Fort Worth and Denver firsts rose 14

091,203. Money on call at the Stock Exchange was easy at 212@2 per cent and finally was offered at 112 per

The weekly bank statement published to-day, after making an allowance for the "shortage" in eash a week ago from the amount given in that

The customs receipts reported at Washington to-day were \$431,302, and the internal revenue re-ceipts \$432,835. The United States Treasury re-ceived \$346,000 National bank notes for redemp-tion, and the receipts for the week were as follows: 1832. 9550,000 300,000 183,000 703,000 1883. \$784,000 480,000 107,000 717,000

hiladelphia... .\$1,741,000 \$2,638,000

gold notes. \$745,584.

The London market was steady for British consols, although the quotations for account are 1-18 higher at 1013; that for money was nuchanged at 1015-16. United States 4s were 's higher at 1255, and 44s were 's lower at 1184s. American railways were irregular, after the fashion of yesterday's home markets, and the slight changes in either direction were only such redections. At Paris, French 3 per cents declined to 77.60 frs.

Innovts of merchandise in New-York:

Imports of merchandise in New-York: Por the week: 1831, 1882, 1883, Dry goods \$1,282,726 \$2,020,433 \$1,839,263 General merchandise 5,934,293 6,953,529 5,815,665 For the week \$7.817.024 \$8.873.362 \$7.654.928 Proviously reported, 364,416,712 417,740,818 882,060,326

THE PETROLEUM MARKET.

NEW-YORK, Nov. 3. Without any decided increase in activity the troleum Exchange enjoyed a change favorable to the onlis" to-day. There was a slow but gradual improve-ent in prices to the extent of about 1 cent, and the arket closed only a shade below the best of the day. ie close was strung. to cause was strong.

The range of praces and the total dealings were as flows:
